Reply to Attn of: EA3-09-004

TO: AMS Records

FROM: EA3/NASA AMS Project Manager

SUBJECT: ISS Thermal Model

Kristin Stafford, the NASA ISS Passive Thermal Control System Deputy System Manager, has informed us that we should utilize the V5R4 version of the ISS simplified thermal model for all current ISS thermal analysis.

All Alpha Magnetic Spectrometer (AMS) Thermal Control System (TCS) team members should utilize this model when performing thermal assessments.

Sincerely,

A handwritten signature in blue ink, appearing to read "Trent D. Martin", with a stylized flourish at the end.
